David,
The powerpoint is much appreciated. This is the kind of thing I was looking for.
I have some things occupying my attention this morning but I have some time late this afternoon and a good portion of the day tomorrow.
What is convenient for you late today or tomorrow?
Chris Hage

Hi Chris, Tomás let me know that you are interested in having a conversation about CES' proposed Class VI UIC permit project. As background, I'm attaching a presentation that the company and their consultants delivered as part of a kick-off meeting back in April. Let me know when would be a convenient time to chat or feel free to send a meeting invite. Thanks,
David
